Case study

National Health Agency digital forms platform

Client	Period	Contract value
National Health Agency (sample customer)	Jun 2023 to Dec 2024	EUR 1.1M

Summary

Built and runs a digital forms platform handling 220,000 submissions a year with role-based workflow, audit trail and 24x5 support, hosted in Azure North Europe.

What we delivered

- Configurable forms and workflow engine on Azure Functions and Cosmos DB
- Single sign-on with the agency identity provider (SAML 2.0)
- Penetration test and DPIA completed before go-live

Results

- 220,000 submissions a year, 99.9% availability
- Average processing time cut from 11 days to 3 days
- No data-protection incidents since launch

Reference

The Head of ICT at the client can be contacted with the customer's consent. Contact details are supplied on request.
