Case study

Munster Regional Water Authority customer portal

Client	Period	Contract value
Munster Regional Water Authority (sample customer)	Jan 2023 to present	EUR 1.85M over four years

Summary

Rebuilt the customer self-service portal for 310,000 accounts with billing integration. 99.95% availability over 18 months. Four-year maintenance contract with 24x5 support, quarterly releases, and monthly service reports.

What we delivered

- ASP.NET Core and React web application on Azure App Service
- Integration with the SAP billing system through a hardened API layer
- WCAG 2.1 AA, Irish and English language

Results

- 310,000 customer accounts migrated with zero billing discrepancies
- 99.95% availability measured over 18 months
- Average call-centre contacts down 27% after launch

Reference

The Head of Digital Services at the client can be contacted with the customer's consent. Contact details are supplied on request.
