Case study

Atlantic Technological Board student records

Client	Period	Contract value
Atlantic Technological Board (sample customer)	Sep 2022 to present	EUR 960K over three years

Summary

Maintenance and development for three student-facing web applications with 24x5 support, take-on from the previous supplier in six weeks, and documented handover procedures.

What we delivered

- Admissions, results and timetable web applications for 14,000 students
- Take-on from the incumbent supplier with a documented transition plan
- Quarterly releases and a named service delivery manager

Results

- Transition completed in six weeks with no service interruption
- 97% of priority-1 incidents resolved inside the 4-hour target
- Student satisfaction with the portal up from 61% to 84%
